Outside-the-Box
Transportation Innovations

Do you have a new, creative, or innovative idea for addressing a significant transportation challenge? We want to see your best ideas submitted to the Cameron Rian Hays Outside-the-Box Competition.

Areas of Interest:
- Innovations in Transportation Products and Services
- Transportation Policy and System Management
- Other Areas

Financing Transportation • Fostering P3 collaborations • Encouraging multi-modal solutions • Reducing community and environmental impacts • Enhancing quality of life • Data collection and management • Expanding opportunities for disadvantaged populations • Your idea here!

Submit Your Proposal
Write or create a 2,000 word essay, PowerPoint presentation, video or other media form to convey a viable and actionable plan that can be implemented to solve a current transportation problem.

Rules and Guidelines
- Enter as individuals or part of a team.
- Entries must represent original work and ideas.
- Must be willing to present their winning ideas at the Competition Finals event.

See the competition website for complete rules and submission guidelines.
