GEORGE MASON UNIVERSITY
SCHAR SCHOOL OF POLICY AND GOVERNMENT

Disaster Response Operations and Recovery
PUAD 631 – Summer 2018

PROFESSOR

Name: Tonya T. Neaves, PhD, MPPA
Email: tneaves@gmu.edu
Telephone: 662-341-8827 (IOS Cell)
Office: ttneaves (Skype)
Hours: By Appointment
Format: Online in MyMason-Blackboard and in Person Founders Hall Room 481

DESCRIPTION

This course is designed to: 1) examine the nature of disasters, 2) explore the principles and practices of emergency management; 3) investigate the roles and responsibilities of varying emergency management-related organizations, and 4) promote models for effective disaster response operations and recovery plans.

LEARNING OBJECTIVES

Students in this course will develop a thorough understanding of disaster response and recovery such that they will be able to:

- Distinguish between the origins of natural and manmade disasters;
- Evaluate factors of disaster risk and vulnerability;
- Identify the seminal phases of emergency management;
- Describe characteristics of disaster response and recovery;
- Summarize lessons learned/best practices of prior disaster response and recovery plans;
- Compare intergovernmental disaster coordination and decision-making tools;
- Simulate a collaborative post-disaster emergency operations center; and
- Predict relevant trends of emergency management to maximize proactivity of the field.

PEDAGOGY

By integrating facilitated discussions, executive training programs, individual assignments, group activities, and other activities, students will be provided a robust educational experience grounded in literature-based and practitioner-supported research.

DISCLAIMERS

This is a tentative, contractual syllabus. The professor reserves the right to make any revisions that may be necessary to meet the objectives of this course. While informative and well-structured, improvements can always be made. Ongoing feedback on the usability of the outline, intelligibility of discussions and assignments, and other relevant materials is always welcome. Students will be promptly notified of any revisions via MyMason-Blackboard and/or Mason Email.

Students are expected to use official channels for all electronic course communication via MyMason-Blackboard and/or Mason Email.
In the event of a scheduled online discussion session cancellation, students will be notified via MyMason-Blackboard and/or Mason Email. Otherwise, every effort has been made to not hold class or require assignments due on major federal holidays or national events of significance. For more information, see http://registrar.gmu.edu/calendars/.

INSTRUCTIONS

This is an online course and will be administered through MyMason-Blackboard interface. To access the course, log into MyMason at https://mymasonportal.gmu.edu/ and enter your Mason Net ID and Password. Then click on the “courses” tab and select the appropriate course under the “course list” section. From there, search through the far left tabs to review the materials (i.e. home page, syllabus, correlation matrix, etc.). Please note that some time restrictions have been placed upon certain course modules and/or assignments, meaning it will impact its availability to ensure that students do not jump around or get too far ahead. For more information, see https://coursessupport.gmu.edu/Students/.

EXPECTATIONS AND POLICIES

Participation – Students must participate in scheduled online discussion sessions by being attentive, bringing information forward for dialogue, making comments about course-related materials, asking relevant questions, which also include completing three short developmental and team building activities.

Netiquette – Students are expected to maintain an environment that is conducive to learning by arriving to the virtual environment on time, demonstrating collegial respect to others, avoiding any disruptive behaviors, and using technology in an appropriate manner. For more information, see http://catalog.gmu.edu/content.php?catoid=17&navoid=1316#Conduct.

Privacy – Students’ educational records are federally protected and will not be released to anyone other than to the student unless proper legal documentation is obtained. For more information, see https://registrar.gmu.edu/students/privacy/.

Writing – Students who need assistance in developing papers or manuscripts should contact Mason Writing Center. For more information, see http://writingcenter.gmu.edu.

Troubleshooting – Students who experience online system difficulties should contact Mason IT Services. For more information, see https://itservices.gmu.edu/.

Disabilities – Students who need service accommodations should inform the professor in writing prior to the beginning of the course and register their disability with the university. For more information, see http://ods.gmu.edu.

ASSIGNMENTS

Survival Exercise – Students must individually rank items and as well as rank items as part of an assigned group to demonstrate their survival knowledge in a fictional exercise.

Group Definition – Students must provide five meaningful terms and define them with consideration for to effectively characterize a disaster and its origins that give consideration to its physical, geographic, cultural, social, political, economic, and governmental elements in order to generate a course-wide working word cloud.

Documentary Synopsis – Students must watch an assigned documentary, and, once completed, write a one page, single-spaced contextual review on its connection to course material, specifically its relevance to disaster response and recovery principles. The documentary is publicly available.

Training Certifications – Students will complete a minimum of three emergency management training certifications among a defined set that are aimed to increase knowledge and understanding of general emergency management themes as information management, improvement planning, and incident command, among many others. These certifications are all available online and are 100% free.

Case Study Presentation – Students will be broken up into small groups to develop a 7-10 minute slide presentation that examines the historical context of an assigned disaster and its respective emergency management processes on the course materials covered to date.

Midterm Examination – Students will have 2 days to complete a 41-question midterm examination. Question types consist of 10 multiple-choice, 5 true and false, 15 matching, 10 short answer, and 1 brief essay question.
Crisis Simulation – Students will participate in a mock emergency operation center representing the various agencies and roles necessary to successfully respond to and recover from a hypothetical disaster.

Research Paper – Students will write a 10 page, double spaced manuscript, excluding references, on a topic related to response and recovery principles. Once an area of interest is selected, students will submit their idea to the professor for approval. The overall spirit of the paper should examine lessons learned and best practices from disaster operations.

*Detailed information and associated grading rubrics regarding each assignment is available for review via MyMason-Blackboard. All assignment should be submitted via Mason email.*

**SCORING**

<table>
<thead>
<tr>
<th>Assignment</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Survival Exercise</td>
<td>4</td>
</tr>
<tr>
<td>Group Definition</td>
<td>5</td>
</tr>
<tr>
<td>Documentary Synopsis</td>
<td>6</td>
</tr>
<tr>
<td>Case Study Presentation</td>
<td>15</td>
</tr>
<tr>
<td>Midterm Examination</td>
<td>20</td>
</tr>
<tr>
<td>Training Certifications</td>
<td>10</td>
</tr>
<tr>
<td>Crisis Simulation</td>
<td>20</td>
</tr>
<tr>
<td>Research Paper</td>
<td>20</td>
</tr>
</tbody>
</table>

There is a total of 100 possible points with the following grade scales:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>At or above 96 points</td>
</tr>
<tr>
<td>A</td>
<td>94-95.9 points</td>
</tr>
<tr>
<td>A-</td>
<td>90-93.9 points</td>
</tr>
<tr>
<td>B+</td>
<td>87-89.9 points</td>
</tr>
<tr>
<td>B</td>
<td>84-86.9 points</td>
</tr>
<tr>
<td>B-</td>
<td>80-83.9 points</td>
</tr>
<tr>
<td>C+</td>
<td>77-79.9 points</td>
</tr>
<tr>
<td>C</td>
<td>74-76.9 points</td>
</tr>
<tr>
<td>C-</td>
<td>70-73.9 points</td>
</tr>
<tr>
<td>F</td>
<td>At or below 69.9 points</td>
</tr>
</tbody>
</table>

The grades of an A/A- indicate sustained excellence and outstanding performance on all aspects of the course. The grades of a B/B+ denote mastery of the material and very good performance on all aspects of the course. The grade of a B- is given for marginal quality work that is not quite up to graduate-level standards as related to the course. The grade of a C denotes work that may be adequate for undergraduate performance, but is not acceptable at the graduate level as related to the course. The grade of an F denotes the failure to perform adequately on course assignments.

Due dates are listed in the course schedule. Mitigating circumstances will only be considered on a case-by-case basis if, and only if, the professor is provided advance notice via Blackboard and Mason email.

**HONOR CODE**

For consideration of grading, an honor code form must be submitted to the professor prior to the first assignment. The form must be signed and dated, which reads: “Student members of George Mason University community pledge not to cheat, plagiarize, steal, or lie in matters related to academic work.” Any honor code and/or other ethical infractions made by students will be handled in accordance with university policies. This signature form is available for download in MyMason-Blackboard. For more information, see [http://www.gmu.edu/academics/catalog/9798/honorcod.html#code](http://www.gmu.edu/academics/catalog/9798/honorcod.html#code).

Turn on survival exercise assignment***

---

**Note:**
- Activities and readings indicated by **McEntire** refer to specific chapters or sections in the McEntire textbook.
- Activities marked with *** indicate special assignments or deadlines that require extra attention.
- The schedule is designed to accommodate a variety of learning activities, ensuring a comprehensive understanding of the course material.

---

**Additional Insights:**
- The introduction to each module highlights the significance of the activities and readings, ensuring that students are prepared for upcoming sessions.
- The inclusion of in-person meetings adds a social and interactive dimension to the learning experience.
- Special assignments marked with *** are crucial for assessing student comprehension and application of the course content.

---

**Conclusion:**
- This structured schedule serves as a roadmap for students, guiding them through the learning process with clear expectations and deadlines.
- By following this plan, students can anticipate the pace and content of their courses, making their academic journey more successful.
Module 7 (June 26)

**Activities**
- Turn in case study presentation assignment***
- Review midterm examination assignment (turn in by July 7)

**Readings**
- McEntire – Chapter 8 and 9

Module 8 (June 28)

**Activities**
- Review midterm examination assignment again
- Review research paper assignment again

**Readings**
- McEntire – Chapter 10
- Boin and McConnell – JCCM Article

Module 9 (July 3)

No Class - Holiday

Module 10 (July 5)

**Activities**
- Turn in midterm examination assignment*** (due July 7)
- Review crisis simulation assignment (to be held July 22)

**Readings**
- McEntire – Chapter 11
- Paton and Jackson – DPM Article

Module 11 (July 10)

**Activities**
- Review research paper assignment again
- Review crisis simulation assignment again

**Readings**
- McEntire – Chapter 12-13
- Paton and Jackson – DPM Article

Module 12 (July 12)

**Readings**
- Trim – DPM Article
- Wallace and DeBalough – PAR Article

Module 13 (July 17)

**Activities**
- Review research paper assignment again
- Review crisis simulation assignment again

Module 14 (July 19)

**Activities**
- Review research paper assignment again
- Complete online course evaluation

Module Recap (July 22)

2nd In Person Meeting (12:00 pm – 4:00 pm or TBD)
- Conduct crisis simulation***

Module 15 (July 24)

Reading Days – Work on research paper assignment

Module 16 (July 26)

Turn in research paper assignment***
